RejuvAllure® Skin Cream

Product Summary
RejuvAllure is a gentle yet rich, nourishing skin cream without the harmful extras. It is now being used not only as a top of the line skin cream for all parts of the body, it is also being recommended by health practitioners for patients with various skin issues. The result is due to the synergy between the essential oils and a base with goat’s milk and other natural materials. Individually, each of the ingredients in RejuvAllure is known for its own properties. Any one of the ingredients can be and has been used for centuries to heal, renew, restore, and rejuvenate skin. Put together, however, 1 plus 1 no longer equals 2, but rather infinite possibilities for health and beauty.

Think About It
On a daily basis our skin, the largest organ of our body, is fighting a battle. It is a battle against the toxic environment many of us live in. We deal with mold and mildew, fungi and bacteria, chemicals in carpet and the fabric of our clothes, fumes in the air and electromagnetic frequencies from computers, phones, televisions, game systems, etc. Most of us no longer live in an area with fresh air and sunshine, able to eat healthy foods fresh from a garden not sprayed with chemicals.

Our skin has to fight against these things, but what can be done to keep our skin healthy and strong so it can continue to battle? What can be done to help our skin when it seems it may be losing the battle? Early signs of aging, wrinkles, sagging skin, a dull tone, dry and cracked are all symptoms. It needs to have something to protect and restore.

With this in mind, our goal was to offer a high quality, natural skin cream without the harmful added extras. In the process, RejuvAllure became much more than we had anticipated. The result is due to the synergy between the essential oils and a base with goat’s milk and other natural materials.
Key Ingredients

**Aloe barbadensis** has been a primary choice for healing skin for over 3000 years.

**Goat’s milk**, gentle even on very sensitive skin, is a rich, natural moisturizer and assists in maintaining a healthy skin pH.

**Black Cumin essential oil** has demonstrated antimicrobial (yeast, fungi, mold), antioxidant, antiparasitic, antihistamine, antiseptic, antitumor, anti-inflammatory, and antihypertensive properties of which many are beneficial for protecting and restoring the skin.

**Orange citrus peel** essential oil gives RejuvAllure the appealing, yet subtle aroma of oranges. It also has demonstrated antimicrobial effects and anti-bacterial effects.

**Coconut oil** has been found to be antifungal, antiviral, and antibacterial. It also contains lauric acid, which is thought to have antimicrobial properties, is naturally full of antioxidants, and is wonderful for the skin.

**Grapeseed oil** has natural non-allergenic properties and is naturally full of antioxidants, offering anti-aging benefits. It is also a wonderful moisturizer containing natural Vitamin E and a high linoleic acid content. Jojaba oil is very high in Vitamin E and is nourishing to the skin. This oil mimics skin’s natural sebum, its lubricator and protector.

**Avocado oil** is ultra rich and contains high amounts of Vitamin A, B1, B2, D, and E. It also contains amino acids, sterols, pantothenic acid, lecithin, and other essential fatty acids. Avocado oil is highly recommended to those with sensitive skin, problem skin and other irritations that require vitamin rich oil.

**Witch Hazel** extract has astringent, antiseptic, anti-inflammatory, antimicrobial, antibacterial, antifungal, and anesthetic properties. It is beneficial for both oily and dry mature skin, and is commonly found in anti-aging products as well as in products for blemished or acne-prone skin.

How to Use

- Apply RejuvAllure® to your entire body as often as needed throughout the day to hydrate and nourish your skin. Pay special attention to those areas that may need a bit more attention such as your hands, feet, elbows, and knees. Moisturize your face and neck with cream morning and/or night, working the cream in with upward motions and a gentle touch. Moisturizing is important for all skin types.

  - When using with VerVita’s Natural Balancing Cream, apply the Natural Balancing Cream first.
